University of Minnesota Minneapolis, MN
Bachelor's Degree in Economics (Transfer)

Expected: 2028

Berkeley City College Berkeley, CA

Completed 2026

Associate Degree for Transfer (ADT) in Economics — transferred to the University of Minnesota

- Relevant Coursework: Principles of Macroeconomics, Principles of Microeconomics, Calculus I & II, Statistics, Linear Algebra

University of Oklahoma Norman, OK

August 2024 – May 2025

Undergraduate Coursework in Economics (Freshman Year)

- Completed foundational economics and general education curriculum prior to institutional transfer.

TECHNICAL PROJECTS

Gridwave (Vivid Lingua) — German Learning Platform gridwave.me

2025 – Present

Founder & Sole Developer

- Designed, built, and deployed a full German language-learning web platform for Mongolian speakers (A1–C2, TestDaF prep) — orchestrating everything: product, UX/UI design, frontend, backend, database, and deployment.
- Built interactive reading, listening, speaking, and writing drills, an AI tutor, TestDaF mock exams, and a vocabulary system, all explained in Mongolian.
- Operate the product end-to-end as the sole owner — infrastructure, subscriptions/onboarding, and growth.

Automated Futures Trading Bot (Python)

October 2025 – Present

Independent Developer

- Built a Python-based trading bot that ingests real-time NQ, ES, MNQ, and YM futures data via API and executes trades based on algorithmic signals.
- Programmed detection logic for ICT-based market microstructures including liquidity sweeps, fair value gaps, premium/discount price arrays, volume profile, and Bookmap order-flow analysis.
- Engineered risk management layer with dynamic equity curve tracking and trailing drawdown controls to meet prop firm consistency rules.
- Bot flags ambiguous market conditions for manual review rather than executing blindly, targeting a ~50% win rate at up to 1:<10 reward-to-risk.

PROFESSIONAL & ENTREPRENEURIAL EXPERIENCE

Buudii — Online Clothing Shop San Francisco, CA

November 2023 – May 2025

Founder & Operator

- Founded an independent e-commerce clothing brand, handling brand positioning, product sourcing, and digital marketing.
- Managed vendor negotiations, inventory purchasing, and financial budgeting to maintain margins and control overhead costs.
- Monitored custom analytics I built to track traffic, identify top-performing products, and adjust inventory and ad spend accordingly.

Logistics & Limousine Service Platform San Francisco, CA

May 2026 – Present

Freelance Web Developer

- Built and launched a responsive web platform for a regional logistics and transport company using React, HTML5, Python, and Node.js.
- Designed booking request interfaces that streamlined inbound lead capture for the client's operations team.
- Deployed on Render with performance optimization for mobile and desktop, ensuring reliable uptime.

LEADERSHIP & COMMUNITY ENGAGEMENT

High School Academic Mentorship Program Remote

July 2023 – July 2024

Volunteer College Admissions & SAT Mentor

Mentor high school seniors on university applications, essay structure, credit transfer logistics, and SAT preparation.

- Conduct structural essay reviews and build personalized study timelines tailored to each student's target schools.

TECHNICAL SKILLS

- **Programming & Frameworks:** Python (Pandas, NumPy), React, JavaScript, SQL, HTML5, CSS3, Git.
- **Platforms & Cloud:** Render, Netlify, Vercel, GitHub, Shopify.
- **Tools:** Advanced Excel (financial modeling, data analysis).
- **Languages:** English (Fluent), Mongolian (Native).
